

March 2008

Environments for the Aging Conference 2008

The Georgeson design team was delighted to take part in this year's Environments for the Aging Conference in Tuscon Arizona. The event brings together leading industry experts to share and discuss the latest research findings, solutions and case studies, ensuring that design solutions remain at the cutting edge of this highly specialist sector.

Below are just some of the sessions in which Georgeson participated, details of which will be shared with, and implemented through, our international clients.

The Future of Aging and Facility Design Implications: Forecast from an Expert Panel. By Barbara S. Harvath, Senior Advisor, Health Tech Center.

Designing Spaces to Accommodate Age Related Hearing: By Susan Mazer, BM, MA, President/CEO, Healing Healthcare Systems.

Aging Well – The transformation from Whole Person Wellness Theory To Culture. By Reed Engel, MA, FAWHP, Mather Lifeways Institute on Aging.
